THE UNIVERSITY OF WESTERN ONTARIO
Department of Sociology
2017-2018

Sociology 9009B
Evidence Based Policy
Thursdays 1:30-4:30, SSC-5406

Instructor

Prof. Laura Huey
Telephone: 519-661-2111 ext. 85151
Email: lhuey@uwo.ca
Office: SSC-5213
Office Hours: by appointment

COURSE DESCRIPTION

This course will be taught in three stages. First, we will explore current ideas and issues in evidence based decision and policy-making and the context for several contemporary debates. The second phase of the course will focus on technical knowledge for those seeking to influence public policy – such as evidence mapping, reviews and other tools. In the final weeks of the course the focus shifts towards application – applying skills learned to reach different audiences Students will be expected to present their ideas and receive constructive, critical feedback.

TEXT

There is no text for this course but a set of readings that you are responsible for each week. The readings will be placed on webct.

EVALUATION

Short paper assignment: due February 6 30 marks
Marketing assignment: due March 13 30 marks
Blog assignment: due April 3 20 marks
Presentation: due March 20/27 10 marks
Participation: show up, discuss the readings, every time 10 marks

Short paper assignment:

Pick a current controversy linked to your area of research interest (education, immigration, crime, etc). Describe the controversy and the arguments presented by both sides. Pick a side and then explain how you would go about attacking the issue in a way that will move the issue forward (change policy, attract more supporters, etc). What I’m looking for is two things: 1. Your ability to write clearly on an issue with which a reader might not be familiar, and 2. Your ability to argue cogently and thoughtful on an issue. Your job is to persuade, so clarity and cogent argument and critical!
Other assignments:

To do the remaining assignments, you must pick an ‘audience’. If you want to change ‘minds’, whose minds do you want to sway? Is your audience academics, communities, professional groups and/or governments. The clearer you are on exactly who your audience is, the easier this will all be.

Marketing assignment:

You will be tasked with creating or revamping three things: a LinkedIn account, a CV/resume and a Twitter account. You will tailor all three of these to attracting appropriate interest from your new audience – through pictures, posts, tweets, job titles, stories, etc. You will then print out each and submit to me with a 3 page (1 page per LinkedIn, CV and Twitter) explanation of how you chose your content/presentation style for each and why you think it will attract the interest of your target audience.

Presentation of ideas: blog

Today, a thoughtful commentary on social media, blog or other websites can generate a significant degree of interest. Remembering your selected audience, and the topic for which you would like to see some policy change, craft an one-page blog aimed at persuading readers. You may be as creative, thoughtful, data-driven, scientific as possible, but just keep the tone and content pitched at your audience.

Presentation of ideas: a talk

A significant amount of public policy work takes the form of talks – whether it be formal presentations, ‘pitches’, webinars, or off-the-cuff Q and A sessions, therefore knowing how to communicate with your audience is vital. Remembering your audience, you will take the ideas presented in your blog and present them to the class in-person or, if you prefer, via a video or in webinar format (I will leave the choice to you). If your intended audience is a community group, you should present accordingly. If it’s an academic audience, the same. Etc., etc. My expectation for this part of the assignment is that you will have absorbed the lessons on how to communicate complex content to different audiences and pitch your talk accordingly. Good news: you only have 10 minutes. Bad news: your classmates will be providing a (constructive) critique afterwards. Listen to what they say, as it could prove to be very valuable.
OUTLINE AND ASSIGNED READING

January 9: Course Introduction

*Idea*

January 16: What does it Mean to be Evidence-Based?

January 23: Anti-science in policy and politics

Reading:

January 30: Struggling against emotions, rhetoric and just plain bad ideas

Reading:

February 6: Ways in which scientists can and do engender change

Reading:

February 13: You’re catching a break – I’ll be in New Orleans this week for a conference

February 20: Spring break

February 27: The Art of Dissent

Reading:

*Know how*

March 6: Communicating for different audiences - blogs, tweets, news media, professional journals, academic papers, CVs, LinkedIn

**March 13: Evidence mapping and reviews, tools**

*Reading:*

Wainwright, Howard. 2016. “Improving data displays: the media's, and ours,” from Truth or Truthiness: Distinguishing Fact from Fiction by Learning to Think Like a Data Scientist. Cambridge: Cambridge University Press.

**Skills**

**March 20: Presentations 201**

students present and receive constructive feedback - diff. audiences (academic, community, professional, government)

**March 27: Presentations 202**

students present and receive constructive feedback - diff. audiences (academic, community, professional, government)

**April 3: Evaluation design**

**April 10: Class wrap up**
Important Policies

Policies for Assignment Deadlines
Only serious and unforeseeable reasons will be accepted as grounds for being late for any assignments. The need for an extension must be discussed before the due date of the assignment (seminar, test, term paper) and documented through the appropriate channels.

A Note on Plagiarism
Students must write their assignments in their own words. Whenever students take an idea from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major scholastic offence. See Scholastic Offences (below) for the link to Scholastic Discipline regulations.

Plagiarism Checking
All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com: http://www.turnitin.com

Scholastic Offences
Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following web site: http://www.uwo.ca/univsec/appeals_discipline/index.html

Accommodation
Only in exceptional circumstances may a student be provided special accommodation in the completion of a course requirement (i.e., exams, papers). To request a one-time accommodation (brief illness, family emergency), the student should inform the professor when they are able so accommodation can be made. To request other accommodation(s), the student must first meet with the Graduate Chair to discuss options. Medical documentation, where required, will be kept on file in the Sociology graduate program office.

Completion of Course Requirements
Course requirements must be completed by the end of the term in which the course is offered (Fall-December 31; Winter - April 30, Summer - August 31). Only in exceptional circumstances may a student take additional time to complete the course requirements. In such a case, the student must first meet with the Graduate Chair to request permission to carry the incomplete. Medical documentation, where required, will be kept on file in the Sociology graduate program office. More details regarding incompletes are outlined in the Graduate Handbook: http://www.sociology.uwo.ca/graduate_handbook/course_information.html
Mental Health
Students who are in emotional/mental distress should refer to Health and Wellness Western for a complete list of options to obtain help: http://uwo.ca/health/mental_wellbeing/

Health and Wellness
As part of a successful graduate student experience at Western, we encourage students to make their health and wellness a priority. Students seeking help regarding mental health concerns are advised to speak to someone they feel comfortable confiding in, such as their faculty supervisor, their program director (graduate chair), or other relevant administrators in their unit. The Wellness Education Centre (lower level UCC) assists students in finding mental health and other related resources best suited to their needs: http://se.uwo.ca/wec.html

Western’s School of Graduate and Postdoctoral Studies’ Living Well website provides tips for thriving at grad school and other helpful information: http://grad.uwo.ca/current_students/living_well/index.html

Western provides several on-campus health-related services to help you achieve optimum health and engage in healthy living while pursuing your graduate degree. For example, to support physical activity, all students, as part of their registration, receive membership in Western’s Campus Recreation Centre: http://www.westernmustangs.ca/index.aspx?path=ims#

Numerous cultural events are offered throughout the year. Also, we encourage you to check out the Faculty of Music web page http://www.music.uwo.ca/, and our own McIntosh Gallery http://www.mcintoshgallery.ca/.
