Course Description:  
In this course, students will learn to investigate the social world using a variety of qualitative research approaches, such as in-depth interviewing, observation, and content analysis. Students will explore the principles underlying qualitative inquiry and acquire a general understanding of the theoretical positions that underlie qualitative methodology. Through lectures, readings, and hands-on research activities, students will explore different ways of investigating the social world in a scientific but non-statistical way that gives voice to the people we are studying. The ultimate goal is to let students obtain some hands-on experience with qualitative research.

Prerequisites: Sociology 2205A/B and 2206A/B.

Unless you have either the requisites for this course or written special permission from your Dean to enroll in it, you may be removed from this course and it will be deleted from your record. The decision may not appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

Antirequisites: Sociology 3310F/G, 3311F/G, Family Studies and Human Development 3230A/B.

Learning Outcomes:  
By the end of this course, students should be able to do the following:

* Evaluate different research methods and their usage.
* Formulate research questions and choose a qualitative research design to examine those questions.
* Understand and meet the ethical standards for conducting research with human subjects
* Design and carry out a research project, including conducting in-depth interviews, ethnographic field observations, and content analysis.
* Analyse and interpret qualitative data.

Evaluation Details:

*In-depth interview proposal:* Identify a sociological problem. Identify research questions. Create a draft interview guide; Describe your recruitment strategy; produce your letter of information and consent form.

*(Auto) Ethnography Assignment:* Conduct an ethnography or auto-ethnography. This involves observing a site, collecting field notes, and analysing your data, or making notes on an experience that you have had personally and analysing them. Then write a brief report summarizing your observations. Answer the questions posed to you on the assignment sheet.

*Content Analysis Assignment:* Content will be assigned to you. Choose content to analyse and answer the questions posed to you on the assignment. We will do this during class time, but you will be given extra time to complete the assignment.

*Interview transcription, analysis and write-up:* Conduct an interview (over zoom, face-time, in-person or phone). Analyse the interview transcripts for themes related to your research questions, and write a brief report on your findings. Submit your transcription, your thematic coding notes, and a brief write-up on your findings.

*Class Attendance:* Attendance at on-line classes is expected. If you cannot attend a class due to illness or other reasons please inform Professor Adams ahead of time. With respect to class attendance you receive 1 mark for each of the 9 classes attended (weeks 2-12), and a bonus mark either for attending all 9, attending week 1, or for meeting with me briefly to discuss your research assignments.

Important Policies

Policies for Assignment Deadlines:
For all assignments, small extensions are available as long as you talk to me beforehand. If you miss the due date for an assignment due to illness or for any other unforeseen reasons, you must provide notification of and documentation respecting your circumstances to your Academic Counselor within 48 hours. If your problem is medical in nature, you should be seen by your doctor near or on the date the assignment is due. If your Academic Counselor agrees that your reasons are legitimate and are supported by your medical doctor’s documentation, you will be allowed to hand in your assignment, or have your grade re-weighted, depending on the circumstances. If none of these steps are followed, late marks will be deducted of 1% per day.

A Note on Plagiarism:
Students must write their assignments in their own words. Whenever students take an idea from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major scholastic offence (the Scholastic Offence Policy can be viewed in the Western Academic Calendar).

Plagiarism Checking:
All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com (www.turnitin.com).

Policy on Electronic Devices During Class
Be sure that cell phones are turned off at the beginning of class.

Standards of Professional Behaviour
It is the responsibility of all of us in this class to adhere to and promote standards of professional behaviour that support an effective learning environment:
• Respect for others both in and out of the classroom through words and actions (be professional, fair, and respectful in interactions with people on-line and in-person; understand and respect differences among classmates and colleagues; avoid disrupting the learning environment; respect others’ expectations of confidentiality and privacy)
• **Active engagement** in learning and commitment to quality (being prepared for classes; participating and
listening actively to other; using technology and social media appropriately, striving to do your best)
• **Personal integrity** (following through on commitments; doing own work).

**Policy on Accommodation for Medical Illness**

Western’s policy on Accommodation for Medical Illness can be found at

Students must see the Academic Counsellor and submit all required documentation in order to be approved for
certain accommodation: counselling.ssc.uwo.ca/procedures/academic_consideration.html.

**Academic Consideration for Missed Work**

Students who are seeking academic consideration for missed work during the semester may submit a *Self-
Reported Absence* (SRA) form online provided that the absence is **48 hours or less** and the other conditions
specified in the Senate policy are met. Two important exceptions to this rule: SRAs will NOT be allowed for
final examinations or assessments worth more than 30% of a given course. Students whose absences are expected
to last **longer than 48 hours**, or where the other conditions detailed in the policy are not met (e.g., work is worth
more than 30% of the final grade, the student has already used 2 self-reported absences, the absence is during the
final exam period), may receive academic consideration by submitting a Student Medical Certificate (for illness)
or other appropriate documentation (for compassionate grounds) to your Home Faculty Academic Counselling
office.

All students pursuing academic consideration, regardless of type, must contact their instructors no less than 24
hours following the end of the period of absence to clarify how they will be expected to fulfill the academic
responsibilities missed during their absence. Students are reminded that they should consider carefully the
implications of postponing tests or midterm exams or delaying submission of work, and are encouraged to make
appropriate decisions based on their specific circumstances.
