

The University of Western Ontario
SOCIOLOGY 2178B-200
Navigating Life: Aging and the Life Course
Winter 2025

Delivery Method - Blended

Instructor: Dr. Andrea Willson

Department of Sociology

Email: willson@uwo.ca

This is a DRAFT only. Please see the course site for the final version.

Course Description: Many countries in the world are wrestling with aging populations. This course examines aging as a social process involving interactions between people and social structures. It emphasizes a life course approach and examines the relationship between the cumulative experiences of people, opportunities and constraints, and quality of life.

Prerequisite(s): None

Anti-requisite(s): Sociology 2202

Course Objectives and Learning Outcomes:

After successfully completing this course, students will be able to

- define the concept of aging as a social process;
- understand how social structures and agency interact to influence the experience of aging;
- explain the strengths and limitations of central theories used to understand aging and the life course;
- understand how life chances and well-being across the life course are shaped by social inequalities resulting from intersections of social class, gender and sexuality, race-ethnicity, and age;
- articulate the main arguments of key topics in the sociology of aging and the life course as they apply to current issues related to individual and population aging; demonstrate effective communication skills through assignments and class discussion.

Course Material:

-Required textbook: *Aging as a Social Process: Canada and Beyond*, 8th Edition. 2023. Oxford University Press. Students need to purchase this edition. Older editions will not be sufficient. Available in the Western Bookstore.

https://bookstore.uwo.ca/textbook-search?campus=UWO&term=W2024B&courses%5B0%5D=200_UW/SOC2178B (\$102.00)

-Technical requirements for the course: stable internet connection, computer with working microphone and webcam.

Communication:

Students are responsible for checking the course OWL Brightspace site (<https://westernu.brightspace.com/d2l/login>) on a regular basis for news and updates. This is the primary method by which information will be disseminated to all students in the class. The professor will also email course information using the email address provided in OWL Brightspace.

Method of Evaluation:

The evaluation methods described in the course outline are essential requirements for the course.

Evaluation Breakdown

Applied Essay	20%	March 24, 2025
Midterm	40%	February 10, 2025
Final Exam	40%	April exam period

Applied Essay

Students will select a course concept and (a) define and explain the concept based on course material, and (b) apply the concept to a relevant current event, controversy, or debate. Sources for the application may include publicly available news articles, social media postings, podcasts, or videos. Essays should be two double-spaced pages (12 pt font, 2.54 cm margins, approximately 600 words). A separate reference page using the American Sociological Association referencing style must be included. Submitted in the Brightspace course site. Essays may be submitted at any time during the term, but must be submitted by March 24 at 11:59 p.m.

NOTE: Because the submission deadline for this assessment already includes flexibility, requests for academic consideration for assignments which are submitted following the final deadline will not be granted. Should students submit their assessment beyond the deadline, a late penalty of 5% per day will be subtracted from the assessed grade.

Exams

Multiple choice. In-class. Students are responsible for all the material in the assigned readings even if this material is not covered in class. The exam will be 2 hours in length. No aids or electronic devices will be allowed during examinations. Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

*Instructors are permitted to designate one assessment per course per term as requiring supporting documentation to receive academic consideration. **For this course the Midterm Exam has been designated as requiring supporting documentation.**

Student Absences:

If you are unable to meet a course requirement due to illness or other serious circumstances, please follow the procedures below.

University policy on academic considerations are described [here](#). This policy requires that all requests for academic considerations must be accompanied by a self-attestation. Further information about academic considerations, and information about submitting this self-attestation with your academic consideration request may be found here. Please note that any academic considerations granted in this course will be determined by the instructor, in consultation with the academic advisors in your Faculty of Registration, in accordance with information presented in this course outline.”

Students must familiarize themselves with the [Policy on Academic Consideration – Undergraduate Students in First Entry Programs](#). Students missing course work for medical, compassionate or extenuating circumstances can request academic consideration by completing a request at the central academic consideration portal. Students are permitted one academic consideration request per course per term without supporting documentation. Note that supporting documentation is **always** required for academic consideration requests for examinations scheduled by the office of the registrar (e.g. December and April exams) and for practical laboratory and performance tests typically schedule during the last week of the term. Students should also note that the instructor may designate one assessment per course per term that requires supporting documentation. This designated assessment is described elsewhere in this document. Please note that any academic considerations granted in this course will be determined by the instructor of this course, in consultation with the academic advisors in your Faculty of Registration, in accordance with information presented in this course outline. Supporting documentation for academic considerations for absences due to illness should use the [Student Medical Certificate](#) or, where that is not possible, equivalent documentation by a health care practitioner.

Students with an approved absence from an in-class test or exam will be required to write a makeup exam. Course professor or teaching assistant(s) may not be available to respond to questions during the makeup exam. Students should be aware that the make-up test will not necessarily be in the same format, be of the same duration, or cover the same material as the original test.

Copyright:

Students may not record or distribute any class activity, including conversations during office hours, without written permission from the instructor, except as necessary as part of approved accommodations for students with disabilities. Any approved recordings may only be used for the student’s own private use.

Artificial Intelligence:

Within this course, students are permitted to use AI tools exclusively for information gathering and preliminary research purposes. These tools are intended to enhance the learning experience by providing access to diverse information sources. However, it is essential that students critically evaluate the obtained information, exercise independent thinking, and engage in original research to synthesize and develop their own ideas, arguments and perspectives. The use of AI tools can serve as a starting point for exploring a topic, with students expected to uphold academic integrity by appropriately attributing all sources of information and avoiding plagiarism. Written assignments should reflect the student’s own thoughts and independent written work. These assessments are designed to evaluate your individual understanding of the course material and your ability to engage in sociological reasoning independently. Students should also generate their own figures (e.g., graphs, diagrams) rather than using AI generated ones. By adhering to these guidelines, students contribute to a responsible and effective learning environment that promotes critical thinking, independent inquiry and allow them to produce

original written contributions. The same principles also apply to the use of translation software to support the writing the essays and other written assessments.

Academic Policies:

Scholastic Offences: Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following web site:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

Plagiarism: Students must write their assignments in their own words. Whenever students take an idea from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major scholastic offence.

All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com (<https://www.turnitin.com/>).

Students are expected to retain all research notes, rough drafts, essay outlines, and other materials used in preparing assignments. In the unlikely event of concerns being raised about the authenticity of any assignment, your instructor may ask you to produce these materials; an inability to do so may weigh heavily against you.

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

Copyright: Students may not record or distribute any class activity, including conversations during office hours, without written permission from the instructor, except as necessary as part of approved accommodations for students with disabilities. Any approved recordings may only be used for the student's own private use.

Absence from Course Commitments: Students must familiarize themselves with the Policy on Academic Consideration – Undergraduate Students in First Entry Programs

https://uwo.ca/univsec/pdf/academic_policies/appeals/academic_consideration_Sep24.pdf

Students missing course work for medical, compassionate or extenuating circumstances can request academic consideration by completing a request at the central academic consideration portal. Students are permitted one academic consideration request per course per term without supporting documentation. Note that **supporting documentation is always required for academic consideration requests for examinations scheduled by the office of the registrar (e.g. December and April exams)** and for practical laboratory and performance tests typically schedule during the last week of the term. Students should also note that the instructor may designate one assessment per course per term that requires supporting documentation. This designated assessment is described in the course outline. Please note that any academic considerations granted in this course will be determined by the instructor of this course, in consultation with the academic advisors in your Faculty of Registration, in accordance with information presented in this course outline. Supporting documentation for

academic considerations for absences due to illness should use the Student Medical Certificate https://www.uwo.ca/univsec/pdf/academic_policies/appeals/medicalform.pdf or, where that is not possible, equivalent documentation by a health care practitioner.

Note: missed work can *only* be excused through one of the mechanisms above. Being asked not to attend an in-person course requirement due to potential COVID-19 symptoms is **not** sufficient on its own. Students should check the Western website to see what directives for Covid are to be followed. Western has been and will continue to follow directives established by the Middlesex-London Health Unit. That directive will state whether students should or should not come to campus/class and any other requirements (e.g., masks are mandatory). Please check on your own and do not email the instructor, the Department Undergraduate Advisor/Coordinator or the Faculty Academic Counselling Office.

Missed Tests and Exams: Students with an approved absence from an in-class test will be required to write a make-up test. The make-up test will not necessarily be in the same format, be of the same duration, or cover the same material as the original test. Course professors may not be available to respond to questions during the make-up test/exam slots.

Students with an approved absence from a final exam in December or April will be required to write a makeup exam known as a Special Examination. Permission to write a Special Examination may be granted on the basis of compassionate or medical grounds with appropriate supporting documentation provided to the student's Home Faculty Academic Counselling office.

Students who fail to write a make-up test or special examination will receive a grade of zero on that assessment. No other make-up opportunities will be provided unless further academic consideration is granted by the student's Home Faculty Academic Counselling office.

Religious Accommodation: Students should review the policy for [Accommodation for Religious Holidays](#) .

Where a student will be unable to write examinations and term tests due to a conflicting religious holiday, they should inform their instructors as soon as possible but not later than two weeks prior to writing the examination/term test. In the case of conflict with a midterm test, students should inform their instructor as soon as possible but not later than one week prior to the midterm.

Contingency plan for an in-person class pivoting to 100% online learning: In the event of a COVID-19 resurgence during the course that necessitates the course delivery moving away from face-to-face interaction, affected course content will be delivered entirely online, either synchronously (i.e., at the times indicated in the timetable) or asynchronously (e.g., posted on OWL Brightspace for students to view at their convenience). The grading scheme will **not** change. Any remaining assessments will also be conducted online as determined by the course instructor.

Accessibility Options: Students with disabilities or accessibility challenges should work with Accessible Education (formerly SSD) http://academicsupport.uwo.ca/accessible_education/index.html, which provides recommendations for accommodation based on medical documentation or psychological and cognitive testing. The accommodation policy can be found here:

https://www.uwo.ca/univsec/pdf/academic_policies/appeals/Academic%20Accommodation_disab

[ilities.pdf](#) . Information regarding accommodation of exams is available on the Registrar's website:
www.registrar.uwo.ca/academics/examinations/accommodated_exams.html .

Mental Health: Students who are in emotional/mental distress should refer to Mental Health@Western
<https://www.uwo.ca/uwocom/mentalhealth> for a complete list of options about how to obtain help.

Gender-Based and Sexual Violence: Western is committed to reducing incidents of gender-based and sexual violence (GBSV) and providing compassionate support to anyone who is going through these traumatic events. If you are experiencing or have experienced GBSV (either recently or in the past), you will find information about support services for survivors, including emergency contacts at the following website
https://www.uwo.ca/health/student_support/survivor_support/get-help.html .To connect with a case manager or set up an appointment, please contact support@uwo.ca .

Registrar Services <http://www.registrar.uwo.ca>

Student Support Services <http://westernusc.ca/services>

Course Selection: Students are responsible for ensuring that their selection of courses is appropriate and accurately recorded, that all course prerequisites have been successfully completed, and that they are aware of any antirequisite courses they may have taken.

If a student enrolls in a course for which they do not have the prerequisites, they may be removed from the course and have it deleted from their record. This decision may not be appealed. A student will receive no adjustment to their fees in the event that they are dropped from a course for failing to have the necessary prerequisites.

If a student takes a course that is antirequisite to a course previously taken, they will lose credit for the earlier course, regardless of the grade achieved in the most recent course.

Please visit your Home Faculty Academic Counselling webpage for information on adding/dropping courses, academic considerations for absences, appeals, exam conflicts, and many other academic related matters:
https://registrar.uwo.ca/faculty_academic_counselling.html .
